Art Unit: 3653

1. The following is an examiner's statement of reasons for allowance: The reason for allowance of claim 8 is the combination of a receptacle having first and second openings adapted to receive a vial and allow the vial to leave the receptacle, a slide extending below the second opening and a flap pivotally attached to the receptacle near the second opening extending beyond the second opening and which is weight by a weight attached to the second (free) end. The prior art does not show such a flap having this structural relationship with a receptacle and slide.

The reason for allowance of claims 11, 14 and 16 is the provision of a slide extending below the second opening of a receptacle having a side wall attached to the receptacle near the second opening and a flap with a first end pivotally attached to the receptacle near the second opening such that the side wall extends between the slide and the flap.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
